[Catholics & Creation Care](#)

Featured Speaker: Dr. Catherine Wright

Did you know that Caring for Creation is part of our Catholic Social Teaching? In Genesis, the first humans are given responsibility for caring for creation, but currently the world's resources are growing scarcer and pandemics are forcing everyone to rethink our relationship with our planetary home. We invite Catholics to look at how caring for creation is a way to promote human dignity and peace.

We invite you to watch 'Catholics and Creation Care' with Dr. Catherine Wright, who has recently published a practical guide on Pope Francis' second encyclical writing, Laudato Si': On Care of Our Common Home.

Learn why creation care is so important to Pope Francis and the life of the Church.
